

KLM KLMA

Cable for instrumentation, alarm systems and personal call finders, fixed installation.

Conductors	Nominal outer diameter mm	Nominal weight kg/km	Product code
KLM			
2 x 0,8	5,7	43	02 91021
4 x 0,8	6,0	51	02 91023
KLMA			
2 x 0,8 + 0,8	5,0	35	02 91070
4 x 0,8 + 0,8	6,0	47	02 91073
Conductor:	Annealed, tinned copper diam. 0,8 mm.		
Insulation:	PVC, nominal wall thickness 0,40 mm.		
Conductor identification:	1=blue, 2=yellow, 3=white, 4=red		
Stranding:	Conductors twisted together.		
Shielding:	(For type KLMA) Plastic coated aluminium tape over a ground conductor diam. 0,8 mm.		
Sheath:	Flame retardant PVC, light grey.		
Rated voltage:	75 V		
Identification:	Type, meter marking & manufacturer's name printed on the sheath. Yellow-white signthread in the cable.		

Standard cable length:

KJAAM, KJAAM ARM, NOVAK and HEVAK = 1000 m/drum.

KLM and KLMA = 600 m/drum.

Other delivery lengths according to agreement.
